

Declaration of conformity with the RoHS-Directive

10.06.2020

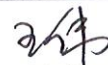

The EU-Directive 2002/95/EG ("RoHS-Directive, Restriction of Hazardous Substances"), which became effective on 1st July 2006, prohibits the placing of products which contain, lead, cadmium, chromium(VI), mercury or PBB/PBDE-containing flame retardants on the market.

As environmentally conscious company Weldstone Components changed over to environmentally acceptable substances already at an early stage, so that all our products are being offered free of above-mentioned hazardous substances already today.

We herewith legally binding confirm, that all the tungsten alloy we supply meet the requirements of the RoHS DIRECTIVE 2002/95/EG OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 January 2003 and of the DIRECTIVE 2002/96/EG OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 January 2003 regarding electrical and electronic used devices on the restriction of the use of certain hazardous substances in electrical and electronic equipment.
